The maximum PMD rental period cannot exceed 4 (Four) hours, and for the first 3 (Three) ride of the User after their registration in the Mobile App, the maximum PMD rental period can be reduced by the Right Holder up to 60 (Sixty) minutes. In this case, the maximum PMD rental period is communicated by the Copyright Holder to the User via push notification within five minutes from the start of the ride. Upon the expiration of the specified period, the Copyright Holder is entitled to forcibly terminate the Rental by the User of the PMD and block the movement of the PMD using software and hardware.

6.2. The rental period of the PMD card is calculated from the moment the "Start Trip" button is pressed in the Mobile Application (or the button of the corresponding functionality with a different name, if it is named differently in the Mobile Application), or from the moment a special combination of PMD control elements is pressed within the wKey function, or from the moment the PMD card is activated using a special card within the NFC-start function, or from the moment the User sends a short text message (SMS) within the "Start by SMS" function. until the User terminates the PMD card rental by pressing the "Finish" button (or the button of the corresponding functionality with a different name, if it is named differently in the Mobile Application), or by pressing a special combination of PMD card control elements within the wKey function, or using a special card within the NFC-start function, or by sending a short text message (SMS) by the User within the "Start by SMS" function taking into account clause 6.3 of this Offer, and, upon request by the Copyright Holder in the Mobile Application, sending a photograph of the general appearance of the parked PMD card as confirmation through the Mobile Application.

6.3. Pressing the "Finish" button in the Mobile Application (or the button with the corresponding functionality that has a different name, if it is named differently in the Mobile Application) results in the termination of the Rental only if the PMD is located in the Parking Zone indicated on the map in the Mobile Application. If the PMD is outside such a zone, pressing the corresponding button will not result in the termination of the

Rental and the Rental period will continue until its completion by the User in the proper manner.

6.4. The User is not entitled to use the PMD outside the Rental period determined in accordance with clause 6.2 of this Offer.

6.5. To check the technical condition of the PMD, as well as to read the terms of the Rental, including the terms on the amount of the rental amount and license fee when using the wKey or NFC-start functions, the User has the opportunity to use the PMD for a trial period of no more than 1 minute from the start of the ride and to travel a distance of no more than 50 meters. A ride completed by the User during the trial period (a ride lasting less than 1 minute with a distance of less than 50 meters) is not recognized as an PMD Rental in accordance with the Agreement ("Zero Trip"). The Rental price and license fee for a Zero Trip, including the license fee provided for in Clause 5.4.2.1 (a), are not charged or collected. If a Zero Trip condition (time or distance) is exceeded, such a ride is not considered a Zero Trip and is recognized as an PMD Rental, the duration of which is calculated in accordance with Clause 6.2 of this Offer.

7. PMD Acceptance and Transfer Procedures

7.1. Acceptance and transfer of the PMD from the Copyright Holder to the User within the framework of the Rental shall be carried out as follows:

7.1.1 A user who does not use the wKey function or the NFC-start function selects a specific PMD card on the card using the Mobile Application. The user scans a QR code or NFC tag located on the PMD card using the phone's NFC reader using the phone's camera. The user using the wKey or NFC-start function selects a specific PMD card at its location and, in the case of wKey, presses a special combination of PMD control elements; in the case of NFC-start, places a special card on the PMD Dashboard; and in the case of the "Start by SMS" function, sends a short text message (SMS) from the phone number linked to his Account to the number specified in the Rules for using the "Start by SMS" function. (in all cases, the User must have a device with the installed Mobile Application in which the User is authorized, and Bluetooth must also be enabled to use wKey).

The following information about the selected PMD card is displayed in the Mobile Application: location, tariff, charge level, as well as information about the choice of Insurance service (the ability to deactivate the service).

When selecting a PMD card, the User must check that there are sufficient funds on the bank card linked to their account in the Mobile Application.

7.1.1.1 Using the Mobile Application, the User can book a specific PMD at the tariff and for the period indicated in the Mobile Application. The booking can be canceled by the User through the Mobile Application. If the Booking is not canceled and the PMD is not accepted for Rental by the User before the end of the Booking period, the Booking ends.

The Copyright Holder is entitled to refuse a Booking to the User if the User has previously canceled one or more Bookings in a row.

It is allowed for one User to book several PMD.

7.1.1.2 It is allowed to rent more than one PMD by one User from one account — A Group trip. In this case, the User can transfer the PMD for management only to third parties who meet the criteria specified in clause 1.18 of this Offer. In the case of a group trip, the User is responsible for all leased property of the Copyright Holder and for compliance with the terms of use of the PMD under the Agreement, and not the third party to whom

the PMD was transferred. All monetary obligations related to the use of multiple PMD cards (including payment of royalties, rental payments, and penalties for violating the Agreement during a trip initiated from the User's account) are assigned to the User and cannot be assigned by the User to a third party to whom the User actually transferred control of the PMD during the Lease.

At the start of a Group Trip, each Rental is started, as well as ended, by the User separately. The maximum number of rented PMD for a Group Trip in one account is 3 (Three), and it can be increased with the purchase of a Subscription by the User, if this is provided for by the description of the corresponding type of Subscription. The possibility of a group trip is not available in Moscow.

7.1.2. At the moment of pressing the "Start Trip" button in the Mobile Application (or the button of the corresponding functionality with a different name, if it is named differently in the Mobile Application) or at the moment of performing the entire set of actions necessary for accepting the PMD card for Rental in the case of using wKey, NFC-start or "Start by SMS" (in accordance with the Rules for using the wKey function, the Rules for using the NFC-start function, the Rules for using the "Start by SMS" function) The User confirms the actual acceptance of the selected PMD card and the tariff applied in connection with its use (with respect to both the license fee and the rental fee).

7.1.2.1 The User may use an additional service and purchase the Insurance service. The insurance premium, insurance terms, the insurance company, and instructions for actions in the event of an insured event are set out in the Mobile Application and are also available via the links: https://data.whoosh-bike.ru/Документы/Страхование/whooshoffer_NS_GO_PR_49.pdf, https://www.alfas-trah.ru/docs/whooshoffer_NS_GO_10.pdf.

To purchase the Insurance service, the User must select the type of insurance and express their voluntary consent to purchase the Insurance service and accept its cost. Such consent is expressed by the User taking an affirmative action, prior to the start of the trip, to activate the Insurance service in the Mobile Application interface. The User may at any time prior to the start of the trip отказаться (opt out of) the Insurance service activated by the User via the Mobile Application interface.

7.1.2.1.1. Upon activation of the Insurance service by the User, the User may be offered a choice between the following options:

- Activation of the Insurance service for the upcoming trip only. If this option is selected, the Insurance service shall be deemed activated by the User solely for one upcoming trip.
- Activation of the Insurance service for the upcoming trip and for subsequent trips made by the User via the Mobile Application. By selecting this option, the User expresses their voluntary consent to activate the Insurance service in respect of all subsequent trips made by the User via the Mobile Application for an indefinite period. The User may отказаться (opt out of) this option at any time prior to the start of a trip via the Mobile Application interface.

7.2. Acceptance and transfer of the PMD from the User to the Copyright Holder at the end of the Rental shall be carried out as follows:

7.2.1. The User parks the PMD card at the Parking point designated on the map in the Mobile Application by the "P" sign, presses the "Finish" button in the Mobile Application (or the button of the corresponding functionality with a different name, if it is named differently in the Mobile Application), and, at the request of the Copyright Holder, sends a photograph of the general appearance of the parked PMD card through the Mobile Application, and also locks the PMD card to the parking space (to a closed part of the structure in such a way that the cable ensures that the PMD card cannot be used without first opening the lock) if there is a lock and if the parking space is not Virtual. The user using the wKey function can also terminate the Rental while the PMD is at the

Parking point by pressing a special combination of PMD control elements. A user using the NFC-start function, when renting a PMD with a reader, can also end the Rental when the PMD is at the Parking point by placing a special card on the PMD Dashboard. The User using the "Start by SMS" function can also end the Rental when the PMD card is at the Parking point by sending a short text message (SMS) from the phone number linked to his Account to the number specified in the Rules for using the "Start by SMS" function.

7.2.2. Provided that the User parks the PMD correctly in accordance with clause 4.4.14 (taking into account clauses 4.4.15.1-4.4.15.4) of this Offer, after the Copyright Holder receives photos of the general view of the parked PMD, confirming correct parking, (if requested by the Copyright Holder), the PMD is considered to have been properly transferred by the User to the Copyright Holder.

7.2.3. Upon completion of the Rental by the User, the User receives a message from the Copyright Holder in the Mobile Application indicating the amount to be paid (including the amount of the license fee and rent). In this case, the User's receipt of the corresponding message is not a confirmation of the Copyright Holder of the correct parking of the PMD by the User. Violations of the Agreement related to the parking of the PMD may be identified by the Copyright Holder after the end of the Rental.

8. Liability of the Parties under the Agreement

8.1. The Parties shall be liable for non-fulfillment or improper fulfillment of the obligations provided for by this Agreement and by the legislation of the Russian Federation.
